

Scope of Services

- Programming
- Master Planning
- Architectural / Engineering Design
- Construction Contract Administration

Program

The City of Camden decided to renovate their historic courthouse to accommodate new technologies and to ensure compliance with building guidelines. Becica Associates was hired to renovate 242,000 square feet of this 18 story building. A phased construction program was implemented so that existing city and county functions would remain intact and operational.

Features

- New office spaces
- Life safety improvements
- Asbestos removal and re-insulation
- Fire suppression systems
- Lighting, heating, ventilating and air-conditioning
- Chiller replacement
- Elevator modernization

Project Cost

\$7.5 Million

Completion Date

1993
