

ROBINS' NEST

Scope of Services

- Programming
- Pre-Design and As-Built Survey
- Architectural Design
- Bidding and Negotiations
- Construction Phase Administration
- Computer Generated Rendering

Program

Robins' Nest is a charity organization located in Glassboro, NJ whose mission is to insure the safety of children and enhance their well-being in a family setting. This is accomplished through a wide array of quality community-based residential and in-home services which encourage and empower children to become responsible members of their community.

Existing facilities include a 12-bed adolescent female dormitory and family center, conference/meeting facility and an over-burdened therapy center and office complex, all of which were adapted from residential and industrial uses. A new building was required to provide much needed space for an expanding counselor and administrative staff.

Becica Associates was selected as a "partner" to help improve the organization's facilities and therefore their ability to deliver these services.

Features

- 21 Counselor Offices
- 5 Executive Offices
- 2 Family Centers
- Conference Room
- Lounge
- 2 story - 16,000 gross sq. ft.

Project Cost

\$2.8 Million

Completion Date

December 2001
