

## STEVEN A. BECICA, A.I.A.

As a Principal of the firm, Mr. Becica has provided architectural and project management services since 1989. Mr. Becica is responsible for programming and architectural design of the firm's projects. His expertise lends a valuable service to our clients as he guides them through the often challenging and complex design and construction process.

Mr. Becica is closely involved with all projects. Beginning with program development, he actively oversees project organization, project cost estimates, scheduling, establishing the design concept and overseeing design development and the construction document production.

Mr. Becica has significant experience in educational facility planning and design and has worked on such high profile projects as the \$52.6M Cherry Hill Township Board of Education district-wide construction and renovation program involving 17 schools in the district. Steven has assisted numerous school districts in preparing their Long Range Facility Plans and Referendum Campaigns with many successful projects credited to his efforts.

Other significant projects include the \$26M United States Courthouse Annex in Camden, NJ and \$7.5M of renovations to the 1930's vintage Camden County Courthouse which is considered a landmark building in the City of Camden.

As Project Principal, Steven's recent accomplishments include the completion of three school projects for the Swedesboro-Woolwich School District, 600 Student Early Childhood Center for the Millville School District and a 360 Student Early Childhood Center for Bridgeton Public Schools as well as the Robin's Nest Office and Counseling Center in Glassboro, New Jersey.
