\$8.8 Million

Completion Date

September 1993

Dorothy L. Bullock Elementary School

370 E. New Street

Glassboro, New Jersey

“...it has been my distinct pleasure to work with [Becica Associates] and [their] firm on the design and construction of the new Bullock School here in Glassboro. [Becica Associates’s] staff is fair honest, hard working people who designed a beautiful school for the people of Glassboro. We particularly appreciated your responsiveness to our questions as the process went forward.

I would recommend Becica Associates to any potential client who is looking for architecture and engineering design services for their project.”

*Joseph E. Brigandi
Former President, Glassboro Board of Education*
