

## Beck, Carusi and Rosa Middle Schools

## CHERRY HILL PUBLIC SCHOOLS

### Program

Faced with increasing enrollments and undersized and antiquated space, the Cherry Hill School District as part of a District wide facility upgrade program, began addressing these needs.

Becica Associates provided design solutions that integrated new space into existing facilities through a combination of new construction and alterations to existing spaces in a seamless fashion. Projects were completed as a part of a \$52.6 Million Bond Referendum beginning in 1999.

### Scope of Services
