

Roof Replacement Projects

Becica Associates has completed roof replacement projects with increased thermal performance and roof drainage capabilities including BUR, modified Bitumen, Metal and EPDM. Roof replacement services include:

- Reviewing Existing Building Documentation
- Conducting As-Built Survey Inspections and Documentation
- Conducting Moisture Surveys
- Evaluating Existing Roof Structures and Roof Mounted Mechanical Equipment
- Presenting Written Reports of Findings with Most Probable Cost Estimate
- Preparing Bid Documents Including Structural, Mechanical, Plumbing
- Assisting Owner During Budding Phase
- Providing Construction Phase/Post-Construction Phase Services

- Beck Middle School, Modified Bitumen, 107,028 sq. ft.
- Burlington Elementary School, EPDM, 15,062 sq. ft.
- Carusi Middle School, Phase I Modified Bitumen, 53,000 sq. ft.
- Carusi Middle School, Phase II Modified Bitumen, 40,335 sq. ft.
- Carusi Middle School Gymnasium, Modified Bitumen, 9,000 sq. ft.

- Carusi Middle School Lab Renovation, Modified Bitumen, 4,749 sq. ft.
- Cooper Elementary School, Modified Bitumen, 44,733 sq. ft.
- Center City Elementary School, Metal, 30,000 sq. ft.
- Collingswood Senior High School, EPDM, 37,979 sq. ft.
- Collingswood Junior HS, EPDM, 23,027 sq. ft.
- Collingswood Elderly Housing, EPDM, 8,042 sq. ft.
- Cherry Hill High School East "F" Wing, Modified Bitumen, 54,961 sq. ft.
- Cherry Hill High School East "A", "D", "E" Wings & Gymnasium, Modified Bitumen, 75,965 sq. ft.
- Cherry Hill High School East "E" Wing Cafeteria Modified Bitumen, 22,754 sq. ft.
- Cherry Hill High School East "B" Wing & "C" Wing, Modified Bitumen, 46,868 sq. ft.
- Cherry Hill High School East Auditorium, Modified Bitumen, 14,731 sq. ft.
- Cherry Hill High School East IMC & Canopies, Modified Bitumen, 13,365 sq. ft.
- Cherry Hill High School West Modified Bitumen, 98,000 sq. ft.
- C.W. Lewis School, Phase I, EPDM, 34,448 sq. ft.
- C.W. Lewis School, Phase II, Metal/EPDM, 44,932 sq. ft.
- Deptford High School Gymnasium, EPDM, 9,000 sq. ft.
- Deptford Junior. High School, EPDM, 31,138 sq. ft.
- Fine Elementary School, EPDM, 16,980 sq. ft.
- Folsom School, Modified Bitumen, 48,755 sq. ft.
- Glen Landing School, Phase I, EPDM, 34,102 sq. ft.
- Glen Landing School, Phase II, EPDM, 49,230 sq. ft.
- Glen Landing School, Phase III, EPDM, 31,987 sq. ft.
- Heritage School, Metal, 24,000 sq. ft.
- Highland High School, EPDM, 56,580 sq. ft.
- Johnson Elementary School, Modified Bitumen, 40,996 sq. ft.
- Kilmer Elementary School, Modified Bitumen, 48,472 sq. ft.
- Kingston Elementary School, Modified Bitumen, 32,432 sq. ft.

SERVICES AND COMPLETED PROJECTS

- Knight Elementary School, Modified Bitumen, 23,053 sq. ft.
- Mann Elementary School, Modified Bitumen, 31,022 sq. ft.
- Morris Goodwin Auditorium, Modified Bitumen, 3,075 sq. ft.
- Neeta Elementary School, EPDM, 53,000 sq. ft.
- Nokomis Elementary School, EPDM, 24,000 sq. ft.
- Paine Elementary School, Modified Bitumen, 42,000 sq. ft.
- Pennsauken High School Auditorium, EPDM, 10,800 sq. ft.
- Pennsauken Middle School EPDM, 118,000 sq. ft.
- Sharp Elementary School 2nd Floor and Canopy, Modified Bitumen, 11,850 sq. ft.
- Sharp Elementary School, Modified Bitumen, 18,480 sq. ft.
- Sewell Elementary School, EPDM, 8,791 sq. ft.
- Southampton School #2, EPDM, 6,188 sq. ft.
- Southampton Schools #1 and #2, EPDM, 20,237 sq. ft.
- Stockton Elementary School, Modified Bitumen, 20,996 sq. ft.
- Stockton Elementary School Kindergarten Wing, APP Membrane, 10,890 sq. ft.
- Tomlin Elementary School, EPDM, 9,395 sq. ft.
- Triton Regional High School, EPDM, 9,787 sq. ft.
- Vineland Learning. Center, Shingle, Deck & Rafters, 40,000 sq. ft.
